

WENDY M. ABION

COMPUTER ENGINEERING STUDENT

09763188189

diwehn@gmail.com

I'm a University of Rizal System (URS) student studying computer engineering. I have a strong love for computer hardware and for software development, especially web designing. I use my understanding of HTML, CSS, and JavaScript to build dynamic websites with eye-catching user interfaces. My hardware experience includes basic networking, system unit assembly. I'm dedicated to applying my skills to find and develop important technological solutions.

KEY PROJECT

Profolio website

Visual code Studio

simple and colorful website about myself

Concert ticketing website

Visual code Studio

It's an eye-catching website focusing on the design of the website with a theme of KDA concert ticketing web page.

Event Booking System

Visual code Studio, SQL Server

The ongoing project for the University of Rizal Antipolo City campus. This system will provide a centralized platform where event organizers can submit their event proposals, including details such as date, time, location, and purpose.

TECHNICAL SKILLS

- Hardware Assembly and Disassembly
- Basic Networking
- Experienced with AutoCAD for precise design work, Visual Studio Code and Visual Studio for software development, SQL Server for efficient database management, and Cisco Packet Tracer for network simulation

SOFT SKILLS

- Excellent Artist
- Illustrations & Sketch
- Fast Learner
- Eager to expand my knowledge.

FREELACE | Artist

2020-present

As an artist, I specialize in both traditional and digital mediums, creating captivating pieces that push the boundaries of creativity

EDUCATION

Bachelor Of Computer Engineering
2021-present

University of Rizal System
